

Electric pedestrian pallet truck ( kg)

# Affordable pallet trucks, delivering reliable and cost-effective handling.

The solution for applications across many industries.

The CBD 15 is the entry-level model of the electric pedestrian pallet trucks. Intended for easy applications in the internal material flow and thanks to its compact design, it is especially suited for operations in narrow spaces. The maintenance-free battery in combination with an on-board charger as part of the standard version ensure particularly easy handling.

All Ameise products are designed to be easy to operate and maintain. The use of qualitative, robust components help contribute to reliable operation and lower wear and tear.

## Your benefits at a glance

- Flexible use is guaranteed by the gel battery in conjunction with an on-board charger.
- Compact design ensures good maneuverability.
- Tandem load wheels together with special designed fork frame for better stability and easier pallet-in.
- Cost-effective product matching most of the basic transportation requirements.

## Your Ameise truck for maximum customer benefit.

### Affordable

Good performance at a lower price.

- Compact structure, maintenance-free battery and simple structure drive motor give a low cost of ownership.
- Battery and components are well protected by the steel cover, avoiding damage and repair.

### Reliable

Quality robust components that you can trust.

- The truck has two sprung support rollers installed sideways next to the drive wheel, which increases the stability of the truck and reduces the risk of transport damage.
- Flexible use is guaranteed by the gel battery in conjunction with an on-board charger. The battery does not need to be topped up with water.
- The drive wheel and tandem fork rollers are made of sturdy polyurethane and offer high-quality, comfortable and quiet driving plus maximum capacity and a long service life.

### Comfortable

Designed for operator comfort.

- High maneuverability due to short front end length and low overall height.
- LCD display showing battery charging indicator, hourmeter and error code.
- Tandem load wheels together with special designed fork frame for better stability and easier pallet in.
- Tiller arm optimally adapted to the ergonomic needs of the operator.
- Clear colour coding and buttons with wearresistant icons ensure intuitive operation.
