

Flexi Narrow Aisle Flexi AC 1200

lift capacity
2000kg

Create up to 30% more warehouse capacity

Flexi AC 1200 works in just 1.65m (EURO) or 1.8m / 2.0m (ISO) aisles to BITA GN9 (FEM) standards.

Lift heights to 10 metres

Designed to bring Flexi articulated space saving and handling efficiency to users of all pallet and load types.

Stacking performance

True radius 1200mm wide chassis and "Artic" over rotate feature allows safe turning, fast pallet put away, vehicle loading in yards or off docks.

Low Triplex mast

Lift masts are standard triplex full free lift, to suit most operating conditions including low doors and pallet rack bridge bays.

Flexi Narrow Aisle Flexi AC 1200

Compact Front AC Power Axle

Latest AC drive technology for fast acceleration and safe controlled braking. Integrated fault finding and monitoring. Easy turning in very narrow aisles.

Forward Facing Seat

High quality adjustable full suspension seat with operators lumbar support. Ergonomic operator.

Tilting "Clear Vision" Mast

Flexi's famous "clear vision" triplex mast design with four lift cylinders. Integrated 'Kaup' side shifting fork carriage as standard easy vehicle loading combination provides class leading fork tip visibility package.

Tough Elastic Rubber Tires

Flexi AC 1200 twin front drive wheels provide excellent grip and traction in slippery conditions even when fully loaded. Continental MC20 elastic finger tread pattern for extended service life and resistant to damage.

HiVIS Overhead Guard

The unique Flexi 'HiVIS' twin post safety guard combines maximum visibility and complete overhead protection for the operator. With no front filters to obscure operators vision.

Easy Battery Change

Low rear lift off or roll off for fast changeovers. Good access for battery topping. No electric motors, brakes or pumps underneath.

AC power to store more at less cost
